

ECLIPSE FLAME SCANNER ADAPTERS

Eclipse Flame Scanner Adapters permit quick, easy installation of ultraviolet flame scanners to burner connections of a different pipe size. Made from heavy steel, these adapters are supplied with a 1/8" N.P.T. tap to permit connection of a purge air line, if required.

For preheated air burners or locations where ambient temperatures are high, scanners should be installed with the Eclipse HBS Heat Block Seal (Bulletin 834). If the burner scanner connection doesn't match the 3/4" thread of the HBS, these adapters can be used as a convenient transition fitting.

DIMENSIONS

Assembly Number	Dimensions In Inches		
	A	B	C
103004	1/2	1/4	2-3/4
103003	1/2	3/8	2-3/4
103002	3/4	1/4	3
103001	3/4	3/8	3
103000	3/4	1/2	3
